

L-GROUP WORKSTATION
In space efficient situations the L-Group Executive Workstation offers the same quality and functionality, but in a more compact size. Shown in Cherry on Walnut

Designed for the executive that embraces modern "connected" office technology, but values the distinction of traditionally designed furniture, the Orion Collection excels at meeting both objectives.

This Collection combines selected wood veneers and traditional old world craftsmanship to create heirloom quality furniture. Designed to accommodate the latest office equipment, each piece balances hand-crafted artisan skills with the efficient design required in an effective modern office setting.

A triple-coat lacquer finish, carefully polished between applications, creates an unmatched depth and warmth to the premium veneers that grows with the patina of age. Premium grade fittings and hardware, backed by an uncompromising attention to fit and finish detail, ensure that this furniture will last for generations.

A modular format optimizes shipping and handling efficiencies, by separating each piece into several modular assemblies. Using quick-connect fittings and dowels, the work surfaces and modesty panels are easily attached to fully assembled pedestals.
