

Mobile Stand and Data File

This popular self-contained storage system features steel construction and 3" ball bearing swivel casters (front 2 lock) and is ideal for project files that need mobility. The optional Data File and Extension makes it possible to file binders with documentation relating to the hanging material. Up to 12 Hanging Clamps (ordered separately) pivot freely from side to side on pivot brackets (included). Height adjusts from 43½" to 61½", and base extends 27½" to 37½", 27" wide overall. Tropic Sand. Assembles quickly and easily.

Model	Description	W x D x H	Ship Weight
