

OBUSFORME®

Our most popular ergonomic chair

natural 'S' curve
support

OBUSFORME®

Global's breakthrough in office seating

multi-tilt

4470 High Back Knee-Tilter with optional 9S arm

4434 Medium Back Multi-tilter. Wide seat and back shown with standard height / width adjustable G3 arm

The OBUSFORME® backrest support system has received an extraordinary level of support from the chiropractic community. It is the only such product endorsed by the Canadian Chiropractic Association, the Chiropractic College of Radiologists and Québec Association of Chiropractors. Endorsements have also been received from the Canadian Physiotherapy Association and the Back Association of Canada.

Ergonomics is the study that deals with the interaction between humans and their activities. It is the practice of designing an environment to adapt to the characteristics of the people who are within it.

Memory Foam (MF): Slow release memory foam evenly distributes body weight, helping to minimize pressure points and ease blood circulation. Optional.

natural 'S' curve

A uniquely shaped polycarbonate back frame helps reduce back strain by guiding your back into a correct, healthy posture. The backrest continuously supports the natural lazy 'S' curve of your spine, flexing as you move in any direction.

Flexible Back a unique flexible polycarbonate back is designed to conform to the natural contours of the spine, providing horizontal and lateral support with multi-directional flexing.

Lumbar Support helps guide the spine into an anatomically correct position and provides added support for the lower back to ensure good posture.

Contoured Seat provides additional support, evenly distributing body weight and minimizing pressure under thighs to promote proper blood circulation.

Global’s breakthrough in office seating

A quality workplace benefits everyone!

multi-tilt

synchro-tilt

4470 High Back Knee-Tilter with optional 9S arm

4434 Medium Back Multi-tilter. Wide seat and back shown with standard height / width adjustable G3 arm

4432 Low Back Multi-tilter with optional QJ kidney shaped ergo-gel arm

Shown with Adaptabilities, Management suite with **4470** High Back Multi Knee-Tilter and **4416** Armchairs

OBUSFORME’s Ultimate adjustable arm (G3), offers multiple movements so it can be adjusted for each user and their environment. Position these arms for keyboarding comfort, proper support and productivity.

Arm slides away from seat (**WA**)

Arm moves up and down

Armcap slides forward and back

Armcap articulates inward

Armcap slides over top of seat

The OBUSFORME® backrest support system has received an extraordinary level of support from the chiropractic community. It is the only such product endorsed by the Canadian Chiropractic Association, the Chiropractic College of Radiologists and Québec Association of Chiropractors. Endorsements have also been received from the Canadian Physiotherapy Association and the Back Association of Canada.

Ergonomics is the study that deals with the interaction between humans and their activities. It is the practice of designing an environment to adapt to the characteristics of the people who are within it.

Memory Foam (MF): Slow release memory foam evenly distributes body weight, helping to minimize pressure points and ease blood circulation. Optional.

Multi-Depth (MD): Adjustable seat depth mechanism provides additional space and comfort. Standard on the following multi-tilter models: **4430, 4431, 4432, 4433, 4434.**

ErgoGel (OJ): Global’s optional height adjustable, kidney shaped conforming gel armrests offer high shock absorption, and years of durable use. Armrests support and help reduce neck and shoulder strain.

“All backrests should provide adequate lumbar support and buttocks clearance. For tasks requiring upper body mobility, the backrest should provide adequate back support, but not interfere with the user’s movement (typically these backs should not be higher than the bottom of the user’s shoulder blades). For users who prefer reclining postures, or more upper back support, the back height should provide support for the shoulder blades”.

BIFMA Ergonomics Guideline Ultimate Test for Fit 2002

Vari-Width™ (WA) Arms: Allow armrests to slide in and out, adding up to 2" of extra room on each side. Armrests can be locked in the most comfortable position using a single lever adjustment. Standard on all height adjustable arms.

A well designed chair is comfortable and it supports the key areas of the body without restricting movement.

After the common cold, more people see doctors about back pain than any other ailment. Almost 80% of the worldwide population will suffer back or neck pain at one time or another. These conditions receive great attention from doctors, chiropractors, physiotherapists and other health care professionals, yet there is no one simple cure.

It is important to take care of your back to keep it healthy. Improving your posture and reducing the strains of everyday living will help reduce back pain and help you maintain a healthier back as you grow older.

OBUSFORME®

Global's Certified Products are in compliance with the stringent emission guidelines set by the GREENGUARD Environmental Institute. We applaud your commitment to indoor air quality.
