

OLYMPUS®

Ideal for Recording Meetings/Interviews

**Includes 4GB Micro SD card
& 4GB of Flash Memory**

Capture high quality sound with the WS-802Gsd.

The WS-802Gsd features two internal directional condenser microphones, achieving the best ever quality in sound recording. Great new features include Voice Playback, Voice Balancer, and Voice Changer.

The WS-802Gsd has 8GB of memory (4 GB internal memory and a 4 GB micro SD card) and more than 2,000 hours of recording time, so you will be able to capture notes, lectures, and more – and still have room to store documents. For even more storage, the WS-802Gsd holds up to a 32GB micro SD card.

The new Voice Balancer feature adjusts voice levels to compensate for distance. This is perfect for interviews or meetings where one person's voice might drown out others based on where the recorder is located.

Features

- 8 GB Memory: 4 GB internal memory and 4 GB micro SD card (up to 2 000 hours recording time)
- Micro SD slot holds up to 32GB of additional memory per card
- Records and plays back in all three of the standard high-function formats: MP3, WMA and PCM
- Voice activated recording for hands free use
- Voice Balancer adjusts voice levels to compensate for distance
- Voice Playback allows you to skip the non-voice portions of a recording and only playback the parts with recorded voices, making for more seamless recordings and easier to transcribe files
- Voice Changer function allows users to change the pitch of a voice
- Noise Cancellation dampens or minimizes unwanted background sounds – so you record a clean, high-quality audio file
- Calendar Search function allows you to easily search for files by date and play them back
- 200 files in each of 5 folders for organization of recorded files
- 99 Index marks and File Move
- Scene Select Function— microphones will automatically adjust to capture the best sound depending on your setting
- Multiple language LCD display (English, French, Spanish, Portuguese)
- Built-in stereo microphone
- Microphone jack— 3.5mm
- Earphone jack— 3.5mm
- Up to 27 hours of recording capability

With the "USB Direct" design, it is easy to charge your recorder and transfer your files over to your Mac or PC. Just plug the recorder right into your computer for fast downloads and charges -no cables needed.
