

heavy duty time recorder

4200 Series (Cool Gray)

Need a steel tough time clock without a tough price? Lathem's mechanical time recorders can't be beat. Ideal for payroll time or job costing, these heavy duty time clocks can withstand high volume use and harsh environments. Whether you choose automatic (4000 Series) or manual (2000 Series) activation, the indestructible coined steel type wheels offer smooth reliable operation and a crisp clear registration every time. Mounted securely to a wall or on a tabletop, the steel case and key lock provide a durable and tamper-proof installation. The two-color ribbon self-reverses at the end of the spool for longer life, and can easily be changed. Works with almost any standard time card.

NEW 1200 SERIES!

An economic alternative to the 2000/4000 Series. This manual time recorder features steel internal construction and an attractive plastic case.

2000/4000

CHOOSE YOUR OPTION

Manual or Automatic Punch

Select either manual or automatic print activation based on your needs. Manual lever activation provides precision print alignment, while Automatic activation allows for simple one-hand operation.

Manual: Models 2xxx

Automatic: Models 4xxx

Charcoal Gray or Cool Gray

All time recorders are available in one of two durable powder-paint finishes. Select from Charcoal Gray which is ideal for harsh work environments, or Cool Gray which provides an attractive appearance for an office workplace.

Charcoal Gray: Models x0xx or x1xx

Cool Gray: Models x2xx

Analog or Digital Display

The 2000 and 4000 series can be ordered with the traditional analog display or to increase visibility it can be ordered with a red LED digital display. The display can be programmed to show either AM/PM or 0-23 hours and minutes.

Digital Display: Models DD-xxxx

ADDITIONAL MODELS

Battery Powered Series

The 2000-BATT Series provides the perfect solution for areas without AC power. This machine keeps precision time for approximately 6 months on four "D-Cell" batteries before recommended battery replacement.

- For use in remote locations or where dependable power supply is unavailable
- Batteries install in a lower cabinet attached to base bottom
- 100% operation with AC power
- Operating Temperature: 45° - 110° F

Timed Bell Ringer Series

The DWA-4000 Series provides a standard 10 Amp solid state relay to control the sounding of bells or horns.

- Controls the sounding of bells or horns to easily maintain workers' schedule
- Up to 32 events per day can be programmed on the internal keypad
- Programs protected up to 15 days if power is interrupted
- Comes standard with an easy to read LED digital display.
