SUPRAPLUS[®] WIRELESS

PROFESSIONAL WIRELESS HEADSET SYSTEM

Superior comfort, sound quality and mobility for the office and contact center.

The SupraPlus Wireless Professional Headset System was designed specifically for contact center supervisors and office professionals with phone-intensive responsibilities who demand hands-free mobility along with Plantronics supreme comfort and superior audio quality. The SupraPlus Wireless is built on digitally-encrypted DECT 6.0 technology and combines the audio clarity of traditional corded technology with the mobility of wireless—so employees can continue digitally secure phone conversations while moving about the office or contact center.

The flexible, extended-wear SupraPlus Wireless delivers:

- **Premium quality, secure communications.** Leading-edge, voice-dedicated DECT 6.0 technology provides top-of-the-line audio quality and the lowest probability of interference with other wireless devices. Digital encryption ensures that calls are clear, private and completely secure.
- **Crystal-clear transmission.** Noise-canceling microphones are ideal for any office environment— even those with extensive background noise. Best-in-class audio quality rivals landline performance.
- **Flexible comfort.** Designed for over-the-head wear, the SupraPlus Wireless is optimized for comfortable, all-day intensive phone use.
- **All-day availability.** The SupraPlus Wireless delivers up to 10 hours of talk time on a single charge.
- **Freedom of mobility.** Multi-tasking throughout the office environment doesn't need to interrupt important calls. With the SupraPlus Wireless, office professionals and call center supervisors can continue conversations up to 300 feet from their desk phone.
