MACHINES & ACCESSORIES

Swingline GBCTM **WORLD'S # 1** LAMINATION BRAND

Why *Swingline*™GBC®?

Time and again you asked for fast warm-up times, fast laminating speeds, and easier to use machines that combine what you want and what you need in lamination. From the ground up, Swingline™GBC® created an all new lamination line. We streamlined our products and the lamination process, incorporating cutting-edge technology into a sleek, modern design. Delivering unmatched speed and simplicity, Swingline™GBC® makes lamination **faster and easier than ever before.**

Super Fast.

Super Easy.

5000L shown

Intelligent™ Pouch Select

Laminating is super fast and super easy with the state-of-the-art Intelligent™ Pouch Select. Innovative technology allows laminators to operate automatically with only minimal user assistance which means the best possible quality and consistent results. Insert the loaded pouch, the machine automatically detects pouch thickness and instantly adjusts to the optimal settings.

Feature available on Fusion™ 5100L and 5000L

Intelligent™ Status Alert

Take the fear out of laminating with Intelligent™ Status Alert. If a jam occurs, the laminator automatically stops and alerts the user by beeping until the pouch is removed; letting users recognize and correct jams sooner than ever before.

Feature available on Fusion™ 5100L, 5000L, 3100L and 3000L

5100L

5000L

Leading Productivity & Advanced Technology

The Fusion™ 5100L and 5000L are top of the line pouch laminating machines, designed to meet the demands of frequent laminating and to exceed your expectations in both speed and ease of use.

Super Fast. Performing at lightning fast speeds, these machines blow away the competition to laminate 10 documents in 4 minutes or less. Get more done in less time with the ability to start feeding a new pouch the instant another finishes.

Super Easy. These smart laminating machines automatically detect pouch thickness and instantly adjust to the optimal lamination settings for your document. This innovative technology ensures high quality, expert results every time.

Fusion™ 5100L 3381650030

- 60 second warm-up
- 47" per minute
- 1.5*, 3, 5, 7, and 10 mil
- 12" max document width
- Auto pouch thickness detection
- Auto jam detection and removal
- Cold lamination setting option
- Premium LCD Screen

Fusion™ 5000L 3381650029

- 60 second warm-up
- 39" per minute
- 3, 5, 7, and 10 mil
- 12" max document width
- Auto pouch thickness detection
- Auto jam detection and removal
- Cold lamination setting option

*With a carrier

Moderate Usage / Personal or Shared

3100L

3000L

Enhanced Speed & Improved Convenience

The Fusion™ 3100L and 3000L laminating machines are valued tools in any mid-size office with daily lamination needs. These laminators are quick, feature clear-cut user interfaces and are the best in their class.

Super Fast. With a 60-90 second warm-up time these laminators show speed. Ready to use at virtually a moment's notice, the 3100L and 3000L inspire you to laminate more as pouches fly through the machine.

Super Easy. Smooth, professional lamination results are super simple with straightforward, touch button setting selection. The automatic jam detection with audible alert also takes the complication out of pouch jams.

Fusion™ 3100L 3381650028

- 60 second warm-up
- 31" per minute
- 3 mil, 5 mil and 7 mil
- 12" max document width
- Touch button interface
- Auto jam detection
- Cold lamination setting option

Fusion™ 3000L 3381650027

- 90 second warm-up
- 19" per minute
- 3 mil or 5 mil
- 12" max document width
- Touch button interface
- Auto jam detection

Occasional Usage / Personal

1100L

1000L

Affordable Performance & Superior Simplicity

The Fusion™ 1100L and 1000L For the home or small office, the Fusion™ 1000L and 1100L laminators are the perfect choice. They are compact, stylish and easy to use for occasional or creative laminating needs.

Super Fast. With warm-up times of 5 minutes or less, these machines are able to laminate more documents in one hour than comparable machines. A sensible, enhanced laminating solution, the 1100L and 1000L will help you protect and preserve documents.

Super Easy. Practically effortless to operate, all you need to do is turn these laminators on. Start laminating as soon as the ready light turns green!

Fusion™ 1100L 3381650026

- 4 minute warm-up
- 13" per minute
- 3 mil or 5 mil
- 9" max document width
- Jam release button

Fusion™ 1000L 3381650025

- 5 minute warm-up
- 13" per minute
- 3 mil or 5 mil (up to 4" x 6" items)
- 12" max document width

Inspire™ Laminator

3381670185

- 7 minute warm-up
- 10" per minute
- 3 or 5 mil (up to 4" x 6" items)
- Laminates documents up to 9" wide

How to Choose

Size - Purchase a machine that can laminate your largest items, since it can always laminate smaller ones. Mounting boards of any size must be laminated on select machines. Banners require roll laminators.

Frequency - Don't underestimate your usage. Laminators are categorized by usage level and office size to best support your needs.

- **Frequent usage** - Ideal for professional services and large offices.

Laminators in this category provide:

- Fastest speed
- Maximum versatility
 - Laminates all pouch thicknesses
 - Accepts 1.5 to 10 mil pouches
- Most durable
- Professional results

- **Moderate usage** - Ideal for medium to large offices.

Laminators in this group offer:

- Quick speed
- Laminates most pouch thicknesses - 3 to 7 mil
- Durable

- **Occasional usage** - Ideal for small and home offices.

Laminators in this set give:

- Modest speed
- Laminates the most common pouch thicknesses - 3 to 5 mil
- Lighter duty
- Good for crafting, badges and other speciality uses

Feature Comparison

How do I know which laminator to choose?

The table below highlights the distinguishing factors of each pouch laminator. First determine the approximate use for your laminator. How many people will be using it, and how often? Next, compare features to find the best machine for your needs.

GBC® Pinnacle 27 EZload™ Thermal Roll Laminator

Thermal roll laminator with EZload™ simplifies film loading and provides quick and easy laminating. Warms up in just 6-9 minutes to laminate items up to 27" wide with NAP I or II film up to 3 mil thick. Built-in horizontal trimmer helps you turn out clean and polished lamination every time and the control panel includes a handy footage counter.

- Thermal roll laminator with EZload™ technology eliminates film loading mistakes
- Use with Pinnacle 27 EZload™ Roll Film up to 3 mil thick
- Variable speed, laminates up to 12 feet per minute
- Additional features include audible alerts, footage counter, temperature readout, auto shutoff and motorized reverse

GBC® Ultima™ 35 EZload™ Thermal Roll Laminator

Ultima 35™ desktop roll laminator delivers high quality results and features EZload™ technology. EZload™ roll film can only be loaded one way, eliminating accidental upside down film loading and costly service calls.

- Thermal roll laminating machine with EZload™ technology eliminates film loading mistakes
- Fixed 36" per minute laminating speed
- Built-in trimmer, reverse and auto shut off functions
- Compatible with 1.7 to 5 mil EZload™ roll film
