

PRODUCT FOCUS

www.scotchtape.ca

Together, we're breaking new ground

At 3M, we continually look for innovative ways to protect the environment and reduce our impact – because what's good for the planet is good for all of us. That's why many Scotch® Brand products are made from recycled materials, including the packaging. We offer a recycled tape tower of bulk refill rolls – with less packaging than individual boxed rolls – resulting in less landfill waste and more savings for you. Trust Scotch® Brand products for eco-smart solutions, today and tomorrow.
